Awards

- **Level 2 Class Prize Computer Science** — Dundee, United Kingdom
  University of Dundee — *June 2026*
  - Awarded to the top performer of the Year 2 cohort (150 students)

Experience

- **Research Intern** — Liverpool, United Kingdom
  University of Liverpool — *June 2026 - August 2026*
  - As part of the Cooper Group I worked on implementing multi-modal capabilities for Opsight, a proprietary AI lab automation platform. My approach reduced cumulative regret by approximately 39% and reached near-optimal performance in roughly half the sampling batches.
- **Software Engineer** — London, United Kingdom
  Expedia Group — *June 2022 - September 2025*
  - Built and maintained traffic-heavy Java microservices hosted on AWS to compute prices for multiple lines of business while ensuring high availability and reliability.

Programming Skills

- **Languages**: Python, Java, C/C++, React, SQL
- **ML Frameworks**: PyTorch, Pandas, Numpy

Projects

- **AI & Blackjack**: This Year 2 team project focused on developing an autonomous agent that plays the popular card game "Blackjack". I was responsible for implementing the reinforcement learning method using Deep Q-Learning and designing experiments to evaluate the agent performance.

Hackthons

- **AI Hackathon 2026** — London, United Kingdom
  Google — *July 2026*
  - Selected as 1 of 52 participants from 900+ applicants, led development of an app integrating multiple Google APIs to surface real-time social content trends for small businesses with the goal of offering SMEs a low cost alternative to hiring a social media strategist.

Extracurricular Activities

- **Student Rep** — Dundee, United Kingdom
  University of Dundee — *September 2025 - current*
  - As a Student Rep I collect student feedback through surveys and conversations and then meet on a monthly basis with staff members to discuss improvements to the student experience at the University.
