EDUCATION

- **University of Dundee** Dundee, United Kingdom
BSc (Hons) Computer Science *September 2025 – June 2028 (expected)*
- **University of Alberta** Edmonton, Canada
BSc (Hons) Computer Science (incoming exchange semester) *January 2027 – May 2027*

EXPERIENCE

- **Expedia Group** London, United Kingdom
Software Engineer *June 2022 - September 2025*
 - **Microservices:** Built and maintained high-performance microservices hosted on AWS to compute prices for multiple lines of business while ensuring high availability and reliability.
 - **API Development:** Managed and optimized the core Pricing API using both REST and gRPC communication frameworks to ensure minimal latency across multiple availability zones.
 - **Netflix Hollow:** Designed and developed microservices to consume Kafka stream events, process the data and publish the results to an S3 bucket in AWS using the Netflix Hollow library for optimised data storage and retrieval.

PROJECTS

- **AI & Blackjack:** This Year 2 team project focused on developing an autonomous agent that plays the popular card game "Blackjack". I was responsible for implementing the reinforcement learning method using Deep Q-Learning, conducting the foundational research and designing experiments to evaluate the agent performance. The full project report is available on mprisciano.github.io
- **TooMuchStudy:** I built an iOS app with the SwiftUI framework that records study sessions duration and provides clear stats with charts and aggregated weekly/monthly data.

PROGRAMMING SKILLS

- **Languages:** Python, Java, C/C++, Scala
- **ML Frameworks:** PyTorch, Tensorflow

EXTRACURRICULAR ACTIVITIES

- **Pints of Science** Dundee, United Kingdom
Event Manager
 - I'm a volunteer event manager for Pints of Science, which is a global festival that makes science accessible by bringing researchers into local pubs to share their work with the public in an informal and relaxed setting.
- **University of Dundee** Dundee, United Kingdom
Student Rep
 - As a Student Rep I collect student feedback through surveys and conversations and then meet on a weekly basis with staff members to discuss and implement improvements to the student experience at the University.
